SUBJECT INDEX

Annual Index 2002

A

- Abfraction, causing noncarious cervical lesions, July/Aug. 170
- Abrasion, air, before sealant placement, Nov./Dec. 270
- Abutment(s)
- /crown combinations, effects on fracture strength, July/Aug. 178-179
 - fixed partial denture, selective bonding technique improves marginal adaptation in, Mar./Apr. 83-84
 - to implant hexagon, orientation of, effect of screw tightening on, Sept./Oct. 216
 - teeth, effects of removable partial dentures on periodontal health of, Sept./Oct. 228
- Acellular dermal matrix graft, for root coverage, May/June 128-129
- Acetaminophen
- induced liver toxicity in patient with jaw pain, Mar./Apr. 58-59
 - metabolism, overview of, Mar./Apr. 59
 - /oxycodone *vs.* valdecoxib for postoperative analgesia, Nov./Dec. 272-273
 - preparations for teething children, Jan./Feb. 12
- Acrylic crown, for fractured primary incisor, Mar./Apr. 58
- Actichlor, effect on wettability of impression materials, Mar./Apr. 66-67
- Acupuncture
- effect on gagging during dental care, Jan./Feb. 6
 - for gum disease treatment, July/Aug. 139
- Adhesive(s)
- all-in-one, enamel and dentin microleakage with, Sept./Oct. 210-211
 - dentin interface of single-bottle adhesives, Nov./Dec. 252-253
 - new, compared for tensile bond strength to dentin, May/June 109
 - orthodontic, fluoride release by, May/June 124-125
 - resins
 - fracture resistance in posterior restorations with, Mar./Apr. 71
 - as secondary seals after root canal treatment, Mar./Apr. 64 - single-bottle, adhesive-dentin interface of, Nov./Dec. 252-253
- Adolescents, caries in, and caffeinated soft drinks, Jan./Feb. 7
- Age, patient, effect on experience of pain during endodontic treatment, July/Aug. 173-174
- Air
- abrasion before sealant placement, Nov./Dec. 270
 - inclusions improve impact handling of mouthguard material, Nov./Dec. 246-247
- Alike, flexural strength of, Sept./Oct. 209
- All-Bond C&B, amalgam restorations with, 5-year clinical follow-up, Nov./Dec. 261-262
- All-Bond 2, plus EDTA etching increases shear bond strength, May/June 108
- All-ceramic crowns, long-term survival, Jan./Feb. 36
- Allergy
- to anesthetic, local, diagnosis, Sept./Oct. 202-203
 - to dental metals, in patients with lichen planus, May/June 122-123
 - latex, switching to low-protein/nonpowdered gloves reduces, Sept./Oct. 214-215
- All-in-one adhesives, enamel and dentin microleakage with, Sept./Oct. 210-211
- Alveolar
- nerve, inferior
 - blocks, in anterior teeth, Mar./Apr. 61
 - injury, microneurosurgery for, Nov./Dec. 266 - paresthesia, dentigerous cyst linked to, Nov./Dec. 243
 - paresthesia, due to periapical disease, July/Aug. 140-141
 - osteitis, postextraction, SaliCept Patch lowers risk of, Nov./Dec. 265-266
- Amalgam
- IRM *vs.* mineral trioxide aggregate in prevention of endoleakage, July/Aug. 165
 - restorations, bonded
 - complex, long-term performance, Jan./Feb. 24-25
 - follow-up, 5-year clinical, Nov./Dec. 261-262 - safety, update on, Jan./Feb. 5
- Amine-fluoride-triclosan mouthrinse, antiplaque effects of, Nov./Dec. 274
- Analgesia, postoperative, valdecoxib *vs.* oxycodone/acetaminophen for, Nov./Dec. 272-273
- Anesthesia
- general, outcomes of pediatric dental treatment under, July/Aug. 174-175
 - local, allergy, diagnosis, Sept./Oct. 202-203
- Anesthetic injection, Gow-Gates, middle ear symptoms related to, May/June 91-92
- Ankylosed maxillary canine, combination approach to, in child, May/June 97-99
- Ankylosis, TMJ, new correction procedure, technique and results, July/Aug. 146-147
- Anomalies, craniofacial, overdentures in children with, May/June 100-101
- Anorexia nervosa, medical and dental management, Sept./Oct. 198-200
- Antegonial notch depth, for facial growth prediction, Nov./Dec. 269
- Antibiotic(s)
- corticosteroid cream, local, for posttreatment endodontic pain, May/June 115
 - for peri-implantitis, retrograde, Jan./Feb. 9
- Anticoagulants, oral, extraction in patients on, Sept./Oct. 222
- Antifungal efficacy, of antimicrobial mouthrinses, Jan./Feb. 28
- Antimicrobial
- chewing gum improves oral health in nursing home residents, May/June 129
 - mouthrinses, antifungal efficacy of, Jan./Feb. 28
- Antiplaque effect
- of amine-fluoride-triclosan mouthrinse, Nov./Dec. 274
 - of chlorhexidine, warming increases, Sept./Oct. 224-225
- Aphthous ulcers, recurrent HIV-associated, low-dose thalidomide in prevention of, May/June 121-122
- Apical trephination, effect on pain after treatment for necrotic teeth, Jan./Feb. 18-19
- Apnea, sleep (*see* Sleep, apnea)
- Appearance, patient, increasing vertical dimension of occlusion improves, Sept./Oct. 212
- Appliance(s)
- occlusal, evidence-based review, Mar./Apr. 84
 - oral
 - effect of sleep posture on response to, Jan./Feb. 36-37
 - for sleep apnea, factors associated with response to, July/Aug. 180-182

for sleep apnea, 2-year follow-up, Nov./Dec. 276-277
orthodontic, metal release from, May/June 124

Approximal areas, Profin system facilitates approach to, July/Aug. 139-140

Artglass veneers, marginal gap width with, July/Aug. 161-162

Arthrocentesis, TMJ
prognostic factors in, May/June 132
with sodium hyaluronate injection, Jan./Feb. 37-38

Aspirin and ibuprofen therapy, Sept./Oct. 207

Assure, fluoride release by, May/June 124-125

Asthma

attacks, triggers of, May/June 96
impact on dental care, Mar./Apr. 55
management, medical, May/June 95-97
medications, May/June 96

At-home bleaching, causing sensitivity, potassium nitrate and fluoride reduce, July/Aug. 162

B

Baby tooth survey, Sept./Oct. 207

Bacteria elimination, from root canals, Nd:YAG laser for, Nov./Dec. 260

Bee substance, decay-fighting, May/June 104

Behavior

changes and teething in children, Jan./Feb. 12

children's, during restorative procedures, effect of initial noninvasive visit on, Mar./Apr. 75-76

management techniques of pediatric dentists, effects of changes in parenting styles on, Sept./Oct. 208-209

Bilaminar treatment technique, for gingival recession, July/Aug. 175

Bill of rights, dentists', Nov./Dec. 249

Bioavailability, of fluoridated rice, July/Aug. 168-169

Biofeedback, with education for bruxism, Mar./Apr. 47

Biofilm, continuing debate, July/Aug. 156

Bioglass formula, modified, in pulp capping, May/June 120

Bionator vs. headgear, in early treatment for Class II malocclusion, Sept./Oct. 222-223

Birth, preterm, and periodontal disease, Jan./Feb. 30

Bis-acryl resins, flexural strength of, Sept./Oct. 209

Bis-Fil 2B intermediate layer, microleakage of Class II composite restorations after, May/June 117

Bleaching

at-home, causing sensitivity, potassium nitrate and fluoride reduce, July/Aug. 162

nonvital tooth, technique, Nov./Dec. 242
strips, color change with, retention at follow-up, Nov./Dec. 257-258

systems, 10% carbamide peroxide, effects on enamel microhardness, Jan./Feb. 20-21

Bleeding

disorders, extraction in patients with, Nov./Dec. 267

after extraction in patients on oral anticoagulants, Sept./Oct. 222

Block

alveolar nerve, inferior, in anterior teeth, Mar./Apr. 61

surgical osteotomy, and distraction osteogenesis for ankylosed maxillary canine in child, May/June 97-99

Blood injection, for recurrent TMJ dislocation, May/June 103

Bloodborne pathogens, update on, Sept./Oct. 195-196

Bond strength

of composites, resin-based, effect of Scope solution on, Jan./Feb. 15

dentin, of self-etching primers, May/June 110

enamel, of self-etching primers, May/June 110

of glass ionomers, new hybrid, Mar./Apr. 75
shear, EDTA etching plus All-Bond 2 increases, May/June 108

tensile, to dentin, new adhesives compared for, May/June 109

Bonded amalgam restorations

complex, long-term performance, Jan./Feb. 24-25

follow-up, 5-year clinical, Nov./Dec. 261-262

Bonding

agent applications, multiple, effect on marginal integrity of composites, Nov./Dec. 253

dentin

agent, *vs.* resin emulsion for treatment of cervical dentin hypersensitivity, Sept./Oct. 213

self-etching primer for, interfacial gaps with, Mar./Apr. 63-64

of orthodontic brackets, use of self-etching primer for, Jan./Feb. 28

technique, selective, effect on marginal adaptation in fixed partial denture abutments, Mar./Apr. 83-84

Bone

grafting, mandibular tori for, Jan./Feb. 11

marrow transplantation for children with cancer, orthodontic treatment after, May/June 126

peri-implant

lesions, Digora digital imaging system for diagnosis of, July/Aug. 178

temperature in, unipolar electrosurgery raises, Mar./Apr. 67

stresses in edentulous posterior mandible, effects of implant configuration on, July/Aug. 167

Brace system, Invisalign, Mar./Apr. 60

Brackets, orthodontic

bonding of, use of self-etching primer in, Jan./Feb. 28

demineralization around, fluoride-releasing resin composite reduces, Jan./Feb. 29

Bruxism, education with biofeedback for, Mar./Apr. 47

Bulimia nervosa, medical and dental management, Sept./Oct. 198-200

Burs, diamond, for Class II cavity preparation, Nov./Dec. 254

C

Caffeinated soft drinks, and caries in teens, Jan./Feb. 7

Calcific metamorphosis, diagnosis and treatment, Jan./Feb. 7-8

Calcium

hydroxide

good outcomes of indirect pulp treatment and, Nov./Dec. 270-271
preparations, thin, for elimination of *E faecalis* from root dentin, July/Aug. 165-166

phosphate, casein derivatives complexed with, in mouthrinse, *vs.* fluoride mouthrinse for caries prevention in dry mouth, Nov./Dec. 251-252

supplements and tooth loss, Sept./Oct. 214

Camera system, intraoral, in analysis of toothbrush performance, Mar./Apr. 78

Canal(s)

dental, inferior, root fracture with perforation by, Nov./Dec. 243-245
orifice, mesiolingual, dental operating microscope in detection of, Sept./Oct. 193-194

root (*see* Root, canal)

shape compared with hand instrumentation *vs.* 2 engine-driven NiTi systems, May/June 113

working length, assessment with digital *vs.* film radiographs, Nov./Dec. 276

Cancer

in children, orthodontic treatment after bone marrow transplantation for, May/June 126

head and neck, radiation therapy for, oral care for patients receiving, Mar./Apr. 53-54

hematologic, complications of extraction in patients with, Mar./Apr. 73

oral

cells, effect of green tea on, Nov./Dec. 265

management, current, May/June 119
squamous cell, in situ or invasive, toluidine blue in diagnosis of, Jan./Feb. 25

Canines

deciduous, *vs.* permanent lateral incisors, deeper root lesions in, May/June 93

maxillary, ankylosed, combination approach to, in child, May/June 97-99

Capping, pulp, modified Bioglass formula in, May/June 120

Carbamazepine, for trigeminal neuralgia, Mar./Apr. 54

- Carbamide peroxide
bleaching systems, 10%, effects on enamel microhardness, Jan./Feb. 20-21
gel, nonvital tooth bleaching with, Nov./Dec. 242
- Carbon dioxide laser, effect on dental hard tissues, July/Aug. 169
- Carcinoma (*see* Cancer)
- Cardiovascular
disease patients, hemodynamic effects of lidocaine-epinephrine in, July/Aug. 157
effects of local hemostatic agents, lack of, Nov./Dec. 273
mortality and poor oral health, Mar./Apr. 74
- Care
dental (*see* Dental, care)
oral
for patients receiving radiation therapy for head and neck cancer, Mar./Apr. 53-54
products, comparison for ability to reduce halitosis-associated volatile sulfur compounds, Jan./Feb. 27
periodontal, effect of population trends on, Nov./Dec. 278
restorative, effect of population trends on, Nov./Dec. 278
- Caries
approximal, maxillary incisors with, effects of endodontic posts in, May/June 130-131
detection, fiberoptic transillumination in, Mar./Apr. 50-51
enamel, active, in primary teeth, effect of fluoride varnish on, Mar./Apr. 79-80
interproximal, in neighboring teeth, glass ionomers promote remineralization in, Jan./Feb. 29-30
occlusal, new techniques for management, May/June 105-106
prevention
in dry mouth, CD-CP *vs.* fluoride mouthrinses for, Nov./Dec. 251-252
with xylitol, Nov./Dec. 251
removal, incomplete, and tooth sealing, for deep carious lesions, Sept./Oct. 229-230
risk, effect of lead on, May/June 105
in teens, and caffeinated soft drinks, Jan./Feb. 7
- Carious
lesions, deep, incomplete caries removal and tooth sealing for, Sept./Oct. 229-230
pulp exposure management, implication of pulp-dentine complex reactions for, July/Aug. 145
teeth, detection of endotoxin in pulp of, Jan./Feb. 26
- Casein derivatives, complexed with calcium phosphate mouthrinse, *vs.* fluoride mouthrinse for caries prevention in dry mouth, Nov./Dec. 251-252
- Cast
frameworks, implant-supported, gold *vs.* silver-palladium for, Nov./Dec. 259-260
- implant, accuracy with 3 different die systems, Sept./Oct. 216-217
- Castings, titanium, radiographic study shows technical acceptability of, Nov./Dec. 275
- Caulk, flexural strength of, Sept./Oct. 209
- Cavidentin *vs.* IRM, as temporary endodontic fillings, July/Aug. 142
- Cavity
preparation, Class II, oscillating systems for, Nov./Dec. 254
remaining dentin thickness, effects on pulpal injury and repair, Nov./Dec. 262
- CavityShield, fluoride uniformity of, Sept./Oct. 212-213
- C&B Metabond, as secondary seal after root canal treatment, Mar./Apr. 65
- CD-CP *vs.* fluoride mouthrinses, for caries prevention in dry mouth, Nov./Dec. 251-252
- Cells, oral cancer, effect of green tea on, Nov./Dec. 265
- Cement-retained implant-supported fixed partial dentures, retrievable, fit and retentive strength of, Mar./Apr. 68
- Cementoblastoma
benign, diagnosis and management, Jan./Feb. 10
recurrence rate, Nov./Dec. 264
- Cementum, root, in cleidocranial dysplasia, Mar./Apr. 71-72
- Ceram crowns, with milled ceramic or titanium abutments, effects on fracture strength, July/Aug. 178-179
- Ceramic
abutments, milled, crowns with, Ceram or Celay feldspathic, effects on fracture strength, July/Aug. 178-179
crowns
all-ceramic, long-term survival, Jan./Feb. 36
metal, with titanium abutments, effects on fracture strength, July/Aug. 178-179
fractures, silica chairside coating for, Nov./Dec. 239
- Cerestore crowns, long-term survival of, Jan./Feb. 36
- Cervical
dentin hypersensitivity, treatment with dentin bonding agent *vs.* resin emulsion, Sept./Oct. 213
lesions, noncarious, abfraction as cause of, July/Aug. 170
- Chairside silica coating, indications and technique, Nov./Dec. 239
- Change, how will you deal with it? May/June 88-89
- Chewing gum, antimicrobial, oral health in nursing home residents improved by, May/June 129
- Chicago IV gold alloy, *vs.* Palliag M silver-palladium alloy for implant-supported cast frameworks, Nov./Dec. 259-260
- Children
(*See also* Pediatric)
- ankylosed maxillary canine in, combination approach to, May/June 97-99
behavior during restorative procedures, effect of initial noninvasive visit on, Mar./Apr. 75-76
bone marrow transplantation for cancer in, orthodontic treatment after, May/June 126
caries prevention with xylitol in, Nov./Dec. 251
craniofacial anomalies and overdentures in, May/June 100-101
dens evaginatus in, diagnosis and treatment, Sept./Oct. 197-198
dens invaginatus in, operating microscope in endodontic therapy for, Nov./Dec. 240-241
facial growth in, antegonial notch depth does not predict, Nov./Dec. 269
fluorosis in, superficial, microabrasion in, Nov./Dec. 241
incisor loss in, premature maxillary, esthetic space maintainer for, July/Aug. 149-150
malocclusion in, Class II, early treatment with headgear *vs.* bionator, Sept./Oct. 222-223
sealants in, hybrid materials as, Jan./Feb. 31-32
teething in, myths and modern management, Jan./Feb. 12
- Chipping, of posterior teeth, as complication of tongue piercing, Sept./Oct. 208
- Chlorhexidine
digluconate mouthrinse, 0.2%, antifungal efficacy of, Jan./Feb. 28
for root canal disinfection, Sept./Oct. 211
warming increases antiplaque effect, Sept./Oct. 224-225
wax, effect on fissure colonization in erupting molars, Nov./Dec. 272
- Chromium levels, measurable, in saliva and serum in orthodontic patients, May/June 123
- Cigarette smoking
poor oral health and cardiovascular mortality, Mar./Apr. 74
women and, Mar./Apr. 60
- Clearfil Liner Bond 2V, tensile bond strength to dentin, May/June 109
- Clearfil Photo Bond, multiple applications, effect on marginal integrity of composite, Nov./Dec. 253
- Clearfil SE Bond
bond strength of, enamel and dentin, May/June 110
as secondary seal after root canal treatment, Mar./Apr. 65
- Cleidocranial dysplasia, root cementum in, Mar./Apr. 71-72
- Clicking, as predictor of temporomandibular disorder in healthy young adults, July/Aug. 182
- Clinical
licensure process, elimination of patients in, Mar./Apr. 46

- practice, Future of Dentistry report as road map for, July/Aug. 138
- Clobetasol mouthwash, for severe oral erosive lesions, Nov./Dec. 268
- CO₂ laser, effect on dental hard tissues, July/Aug. 169
- Coagulation factor replacement, and extraction in patients with bleeding disorders, Nov./Dec. 267
- Coating(s)
effect on surface integrity and softness of tissue conditioners, Sept./Oct. 227
silica, chairside, indications and technique, Nov./Dec. 239
- Cochlear implants, effect of electrosurgery on, July/Aug. 166
- Cojet airborne particle abrasion technique, indications for, Nov./Dec. 239
- Colgate Total
Liquid Toothpaste, clinical effectiveness, Sept./Oct. 226
Precision toothbrush performance, analysis with intraoral camera system, Mar./Apr. 78
- Color change, with bleaching strips is retained at follow-up, Nov./Dec. 257-258
- Communication, with HIV-infected patients, effects of training program on, July/Aug. 157-158
- Compoglass F, localized wear resistance of, May/June 109-110
- Compomers
for root-end filling, Jan./Feb. 19-20
wear resistance of, localized, May/June 109-110
- Composite(s)
intermediate layer, low-viscosity, mode of failure altered by, May/June 107-108
light-cured *vs.* self-cured, direction of polymerization shrinkage in, Jan./Feb. 16-17
marginal integrity, effect of multiple applications of bonding agent on, Nov./Dec. 253
packable, polymerization contraction forces of, July/Aug. 158-159
resin, fluoride-releasing, effect on demineralization around orthodontic brackets, Jan./Feb. 29
resin-based, bond strength of, effect of Scope solution on, Jan./Feb. 15
restorations, Class II, effect of intermediate layers on microleakage in, May/June 117
vs. ceramic veneers, marginal gap width with, July/Aug. 161-162
- Condensation, lateral
vs. thermoplasticized gutta-percha techniques, Nov./Dec. 257
vs. warm gutta-percha, May/June 114
- Conditioners, tissue, coatings preserve surface integrity and softness of, Sept./Oct. 227
- Condylar position, seated, importance and measurement in orthodontic correction, Nov./Dec. 268-269
- Connective tissue, free, in combined surgical procedure for root coverage, May/June 128
- Contraction forces, polymerization, of packable composites, July/Aug. 158-159
- Core buildup, effects on fracture strength of endodontically treated premolars, July/Aug. 179-180
- Coronary heart disease, risk reduced by elimination of dental infection, Jan./Feb. 39
- Coronoid process grafts, combined with sagittal split osteotomies for correction of TMJ ankylosis, July/Aug. 146-147
- Corticosteroid-antibiotic cream, local, for posttreatment endodontic pain, May/June 115
- Corticotomy and magnets, for overerupted molars, Mar./Apr. 56-57
- Craniofacial anomalies, overdentures in children with, May/June 100-101
- Crest Whitestrips, color change with, retention at follow-up, Nov./Dec. 257-258
- Crown(s)
/abutment combinations, effects on fracture strength, July/Aug. 178-179
acrylic, for fractured primary incisor, Mar./Apr. 58
all-ceramic, long-term survival, Jan./Feb. 36
incisor, inclination, disposable device for measurement of, Sept./Oct. 210
lengthening surgery, soft tissue changes after, 1-year follow-up, Mar./Apr. 79
stainless steel, failure rate in developmentally disabled children, July/Aug. 174-175
strip, placement on primary incisors, technique, Nov./Dec. 245-246
- Cumulative trauma disorders, in dentistry, risk factors and prevention, Sept./Oct. 196-197
- Cuspal deformation, effects of occlusal loading on, Mar./Apr. 68-70
- Cyst
dentigerous, link to inferior alveolar nerve paresthesia, Nov./Dec. 243
paradental, findings of, May/June 118
- Cytokine production, proinflammatory, effect of nicotine and lipopolysaccharide in, Mar./Apr. 77-78
- D**
- Debridement, surgical, for retrograde peri-implantitis, Jan./Feb. 9
- Decay-fighting bee substance, May/June 104
- Decayed primary teeth, polyethylene ribbons for reconstruction of, May/June 99
- Demineralization, around orthodontic brackets, effect of fluoride-releasing resin composite on, Jan./Feb. 29
- Dens
evaginatus in children, diagnosis and treatment, Sept./Oct. 197-198
invaginatus, operating microscope use in endodontic therapy for, Nov./Dec. 240-241
- Dental
canal, inferior, root fracture with perforation by, Nov./Dec. 243-245
- care
continuing, prebooking as proactive approach to, Sept./Oct. 192
gagging during, effect of acupuncture on, Jan./Feb. 6
impact of asthma on, Mar./Apr. 54
economy, will economic turnaround reveal weaknesses of? July/Aug. 176-177
education (see Education, dental)
infection elimination and reduction of coronary heart disease risk, Jan./Feb. 39
information on the Internet, reliable, Jan./Feb. 8
insurance, dealing with, July/Aug. 153
lifesavers, July/Aug. 136-137
management
of anorexia and bulimia nervosa, Sept./Oct. 198-200
of Sjögren's syndrome, May/June 95
metals, allergy to, in patients with lichen planus, May/June 122-123
operating microscope (see Microscope, dental operating)
practice (see Practice, dental)
research *vs.* medical research, Nov./Dec. 238
schools, stress and suicide in, Jan./Feb. 23-24
specialization, return on investment of, July/Aug. 176
tissues, hard, effect of CO₂ laser on, July/Aug. 169
treatment
honey as, July/Aug. 152
pediatric, under general anesthesia, outcomes, July/Aug. 174-175
waste water as source of environmental mercury, Jan./Feb. 40
- Dentaurum stainless steel archwires, metal release from, May/June 124
- Dentifrice
(See also Toothpaste)
liquid, triclosan-containing, clinical effectiveness, Sept./Oct. 226
- Dentigerous cyst, link to inferior alveolar nerve paresthesia, Nov./Dec. 243
- Dentin
-adhesive interface of single-bottle adhesives, Nov./Dec. 252-253
bond strength to
of self-etching primers, May/June 110
tensile, new adhesives compared for, May/June 109
bonding
agent *vs.* resin emulsion for treatment of cervical dentin hypersensitivity, Sept./Oct. 213
self-etching primer for, interfacial gaps with, Mar./Apr. 63-64
hybridized, permeability, effect of impression materials on, Jan./Feb. 15-16
hypersensitivity (see Hypersensitivity, dentin)
microleakage with all-in-one adhesives, Sept./Oct. 210-211
-pulp complex reactions, July/Aug. 145
root, thin calcium hydroxide preparations eliminate *E faecalis* from, July/Aug. 165-166

- thickness, cavity remaining, effects on
pulpal injury and repair, Nov./Dec. 262
- Dentine (see Dentin)
- Dentinogenesis imperfecta, overdentures in
children with, May/June 100
- Dentist(s)
bill of rights, Nov./Dec. 249
discussion of insurance company practices
with patients, July/Aug. 155
as lifesavers, tips for working with
physicians, Sept./Oct. 189
musculoskeletal symptoms in, rates and
risk factors, Sept./Oct. 217-219
pediatric, behavioral management
techniques of, effects of change in
parenting styles on, Sept./Oct. 208-209
reputation for honesty, protecting,
Mar./Apr. 59-60
suicide and, Jan./Feb. 23-24
- Dentistry
cumulative trauma disorders in, risk factors
and prevention, Sept./Oct. 196-197
esthetic, overcutting in, July/Aug. 184
evidence-based, role of health services
research in, Mar./Apr. 50
future of, Nov./Dec. 236-238
hospital/special care, Jan./Feb. 13-14
implications of rising health spending for,
May/June 90
photography in, digital, characteristics and
uses, May/June 92
- Dentures
increasing demand for, and population
changes, Sept./Oct. 190
overdentures in children with craniofacial
anomalies, May/June 100-101
- partial
fixed, abutments, selective bonding
technique improves marginal
adaptation in, Mar./Apr. 83-84
fixed, implant-supported, retrievable
cement-retained, fit and retentive
strength of, Mar./Apr. 68
fixed, inlay, glass fiber-reinforced,
clinical performance of, 1- and
2-year outcomes, Nov./Dec. 274-275
impression technique for constructing,
Jan./Feb. 33-34
need for, future, Sept./Oct. 191
removable, effects on periodontal
health of abutment *vs.* nonabutment
teeth, Sept./Oct. 228
removable, maxillary, improving
esthetics of, Sept./Oct. 204-205
removable, negative association in
survival of teeth adjacent to,
Jan./Feb. 32
quality of, effect on dietary quality in
edentulous patients, Nov./Dec. 261
repair techniques, effects on fracture force,
July/Aug. 159-161
- Depressive symptoms, and idiopathic facial
pain, Jan./Feb. 11-12
- Dermal matrix graft, acellular, for root
coverage, May/June 128-129
- Desmopressin, and extraction in patients with
bleeding disorders, Nov./Dec. 267
- Desquamation, oral, due to oral health care
products, July/Aug. 147-148
- Developmentally disabled children, stainless
steel crown failure rate in, July/Aug.
174-175
- Diabetes mellitus
neuropathy of, causing glossodynia,
May/June 94
type 2, delaying, May/June 104
- DIAGNOdent system, in management of
occlusal caries, May/June 106
- Diamond burs, for Class II cavity preparation,
Nov./Dec. 254
- Dicor crowns, long-term survival of, Jan./Feb.
36
- Die systems, 3 different, implant cast accuracy
with, Sept./Oct. 216-217
- Diet and exercise, delay of type 2 diabetes
with, May/June 104
- Dietary quality, in edentulous patients, effect
of denture quality on, Nov./Dec. 261
- Digital
imaging
current status of, July/Aug. 151-152
system, Digora, for diagnosis of
peri-implant bone lesions, July/Aug.
178
photography in dentistry, characteristics
and uses, May/June 92
vs. film radiography
for assessment of canal working length,
Nov./Dec. 276
periapical lesions detected with,
Mar./Apr. 81-82
- Digora digital imaging system, for diagnosis of
peri-implant bone lesions, July/Aug. 178
- Disinfection
effect on wettability of impression
materials, Mar./Apr. 66-67
root canal, chlorhexidine for, Sept./Oct.
211
- Disk, polishing, lost, causing oral mucosal
trauma, Mar./Apr. 52-53
- Dissectomy, for TMJ internal derangement,
5-year follow-up, Jan./Feb. 38
- Dislocation, recurrent temporomandibular,
blood injection for, May/June 103
- Distraction osteogenesis, after surgical block
osteotomy for ankylosed maxillary canine
in child, May/June 97-99
- Dowel
-and-core materials, various, effect of
thermal stress on, Mar./Apr. 83
design, effects on endodontically treated
teeth, Jan./Feb. 35-36
- Doxycycline, locally delivered, effect of
subgingival plaque on, Sept./Oct. 224
- Drinks, caffeinated soft, and caries in teens,
Jan./Feb. 7
- Drugs, hemostatic, local, no cardiovascular
effects of, Nov./Dec. 273
- Dry mouth
caries prevention in, CD-CP *vs.* fluoride
mouthrinses for, Nov./Dec. 251-252
- in menopausal women, effect of hormone
replacement on rate of, Mar./Apr. 73-74
- Duraflor
fluoride uniformity of, Sept./Oct. 212-213
vs. Duraphat varnish, fluoride release over
6 months from, May/June 115-116
- Duraphat
fluoride uniformity of, Sept./Oct. 212-213
reverses active enamel caries in primary
teeth, Mar./Apr. 79-80
vs. Duraflor varnish, fluoride release over 6
months from, May/June 115-116
- DVA system, implant cast accuracy with,
Sept./Oct. 216-217
- Dyract
for root-end filling, Jan./Feb. 19-20
as sealant in children, Jan./Feb. 31-32
wear resistance of, localized, May/June
109-110
- Dyract AP, localized wear resistance of,
May/June 109-110
- Dyract Flow, intermediate layer, microleakage
of Class II composite restorations after,
May/June 117
- Dysplasia, cleidocranial, root cementum in,
Mar./Apr. 71-72

E

- Eagle's syndrome, diagnosis and management,
Sept./Oct. 220
- Ear, middle, symptoms, related to Gow-Gates
injection, May/June 91-92
- Eating disorders
diagnosis and epidemiology, Sept./Oct. 199
oral complications of, Sept./Oct. 200
- Economic turnaround, will it reveal weaknesses
of dental economy? 176-177
- Edentulous
mandible, posterior, effect of bone
configuration on bone stresses in,
July/Aug. 167
patients
coronary heart disease risk in, Jan./Feb.
39
dietary quality in, effect of denture
quality on, Nov./Dec. 261
partially, tooth-implant-connected
prostheses in, long-term follow-up,
Jan./Feb. 34-35
spaces in fixed prosthodontics, technique
for analysis of, July/Aug. 153-154
- EDTA etching, plus All-Bond 2 increases shear
bond strength, May/June 108
- Education
with biofeedback for bruxism, Mar./Apr. 47
dental
courses, online continuing, evaluation
of, Nov./Dec. 255-256
integration with medical education,
converging trends predict,
Nov./Dec. 254-255
programs, decrease in teaching of
hand-over-mouth technique in,
Mar./Apr. 76

- medical, integration with dental education, converging trends predict, Nov./Dec. 254-255
- Elan, localized wear resistance of, May/June 109-110
- Elderly
edentulous patients, effect of denture quality on dietary quality in, Nov./Dec. 261
- facial pain in, idiopathic, implications for diagnosis and treatment, Jan./Feb. 11-12
- implant therapy in, Sept./Oct. 215
- nursing home residents, antimicrobial chewing gum improves oral health in, May/June 129
- tooth loss in, effects of calcium and vitamin D supplements on, Sept./Oct. 214
- Electrocoagulation, for pulpotomy in primary molars, Nov./Dec. 263-264
- Electroconductance measurements, in management of occlusal caries, May/June 105-106
- Electronic torque controllers, accuracy of, Jan./Feb. 22
- Electrosurgery
effect on cochlear implants, July/Aug. 166
- unipolar, temperature in peri-implant bone raised by, Mar./Apr. 67
- Embezzlement, in dental practice, warning signs of, Sept./Oct. 204
- Emotional events, memories of, July/Aug. 163
- Enamel
bond strength of self-etching primers, May/June 110
- caries in primary teeth, active, effect of fluoride varnish on, Mar./Apr. 79-80
- microhardness, effects of 10% carbamide peroxide bleaching systems on, Jan./Feb. 20-21
- microleakage with all-in-one adhesives, Sept./Oct. 210-211
- Enameloplasty, fissure, before sealant placement, Nov./Dec. 270
- Endodontic
fillings, temporary, IRM *vs.* Cavidentin as, July/Aug. 142
- instruments, wear resistance of, ionic implantation increases, Mar./Apr. 64
- pain, posttreatment
corticosteroid-antibiotic cream for, local, May/June 115
- after initial treatment *vs.* retreatment, May/June 113-114
- posts, effects in maxillary incisors with approximal caries, May/June 130-131
- treatment
in dens invaginatus, operating microscope in, Nov./Dec. 240-241
- pain experience during, effect of patient sex and age on, July/Aug. 173-174
- root fracture after, vertical, May/June 131
- Endodontically treated premolars, effects of core buildup on fracture strength of, July/Aug. 179-180
- Endodontically treated teeth, effects of dowel design on, Jan./Feb. 35-36
- Endotoxin
detection in pulp of carious teeth, Jan./Feb. 26
- infiltration into root canals prevented by obturation, Nov./Dec. 256
- leakage, prevention of, July/Aug. 165
- Engine-driven NiTi systems, *vs.* hand instrumentation, canal shape compared with, May/June 113
- Enterococcus faecalis*, elimination from root dentin, thin calcium hydroxide preparations for, July/Aug. 165-166
- Environmental mercury, dental waste water as source of, Jan./Feb. 40
- Epinephrine
-lidocaine, hemodynamic effects in patients with cardiovascular disease, July/Aug. 157
- pellets, no cardiovascular effects of, Nov./Dec. 273
- Erosive oral lesions, severe, clobetasol mouthwash for, Nov./Dec. 268
- Erupting molars, effect of chlorhexidine wax on fissure colonization in, Nov./Dec. 272
- Er:YAG laser treatment, for hypersensitive dentine, Sept./Oct. 223
- Esthetic
decisions, simulated shape design helps involve patients in, Mar./Apr. 48-49
- dentistry, overcutting in, July/Aug. 184
- space maintainer for premature maxillary incisor loss in children, July/Aug. 149-150
- Ethetics, of maxillary removable partial dentures, improving, Sept./Oct. 204-205
- Estrogen replacement therapy, postmenopausal, effect on implant failure rates, May/June 116
- Etch & Prime, enamel and dentin microleakage with, Sept./Oct. 210-211
- Etch & Prime 3.0, bond strength of enamel and dentin, May/June 110
- tensile, to dentin, May/June 109
- Etching, EDTA, plus All-Bond 2, shear bond strength increased by, May/June 108
- Ethics, in dentistry, Mar./Apr. 59
- Ethylene vinyl acetate mouthguard material, air inclusions improve impact handling of, Nov./Dec. 246-247
- Ethylenediaminetetraacetic acid etching, plus All-Bond 2 increases shear bond strength, May/June 108
- Evidence-based dentistry, role of health services research in, Mar./Apr. 50
- Exercise and diet, delay of type 2 diabetes with, May/June 104
- Expt GIC AF, high bond strength plus fluoride release from, Mar./Apr. 75
- Extraction
complications after, effect of sterile gloves on, Sept./Oct. 221
- in hematologic cancer patients, complications of, Mar./Apr. 73
- osteitis after, alveolar, SaliCept Patch lowers risk of, Nov./Dec. 265-266
- in patients on oral anticoagulants, Sept./Oct. 222
- in patients with bleeding disorders, Nov./Dec. 267
- for root pathosis, XRP plus guided tissue regeneration as alternative to, Sept./Oct. 194-195
- of submerged teeth, Nov./Dec. 271
- Extrarticulation and reimplantation, plus guided tissue regeneration for root pathosis, Sept./Oct. 194-195

F

- F200, localized wear resistance of, May/June 109-110
- Facial
craniofacial anomalies, overdentures in children with, May/June 100-101
- growth, antegonial notch depth does not predict, Nov./Dec. 269
- pain
chronic, clinical approach to, Mar./Apr. 57
- idiopathic, implications for diagnosis and treatment, Jan./Feb. 11-12
- Fee-for-services, patient preference for, July/Aug. 156
- Ferric sulfate, no cardiovascular effects of, Nov./Dec. 273
- Fiber, glass
dentures reinforced with, inlay fixed partial, clinical performance, 1- and 2-year outcomes, Nov./Dec. 274-275
- short, glass ionomers reinforced with, flexural strength of, Mar./Apr. 63
- Fiberoptic transillumination, in caries detection, Mar./Apr. 50-51
- Files, GT, in preparation of curved root canals, comparative study, Jan./Feb. 19
- Filling(s)
endodontic, temporary, IRM *vs.* Cavidentin as, July/Aug. 142
- materials, root-end, in prevention of endotoxin leakage, July/Aug. 165
- root-end, compomers for, Jan./Feb. 19-20
- Fissure
colonization in erupting molars, effect of chlorhexidine wax on, Nov./Dec. 272
- enameloplasty before sealant placement, Nov./Dec. 270
- Fit
of dentures, retrievable cement-retained implant-supported, Mar./Apr. 68
- passive, in implant prosthodontics, Jan./Feb. 21-22
- Flap design, effect on wound healing after lower third molar surgery, July/Aug. 171-172
- FlexiFlow luting, and shorter posts, May/June 106-107
- Flexural strength
of glass ionomer, short glass fiber-reinforced, Mar./Apr. 63
- of resins, provisional, Sept./Oct. 209

- Flow It, mode of failure altered by, May/June 107-108
- Fluorescence, laser, in management of occlusal caries, May/June 105-106
- Fluoridated rice, initial bioavailability and metabolic studies, July/Aug. 168-169
- Fluoride
- mouthrinses *vs.* CD-CP mouthrinse for caries prevention in dry mouth, Nov./Dec. 251-252
 - policy for U.S., Mar./Apr. 44-45
 - reduces sensitivity due to at-home bleaching, July/Aug. 162
 - release
 - from adhesives, orthodontic, May/June 124-125
 - from glass ionomers, amount of, Mar./Apr. 61-62
 - from glass ionomers, new hybrid, Mar./Apr. 75
 - over 6 months from Duraphat *vs.* Duraflor varnish, May/June 115-116
 - releasing resin composite reduces demineralization around orthodontic brackets, Jan./Feb. 29
 - triclosan-amine mouthrinse, antiplaque effects of, Nov./Dec. 274
 - varnish(es)
 - effect on active enamel caries in primary teeth, Mar./Apr. 79-80
 - lack of fluoride uniformity among, Sept./Oct. 212-213
- Fluorosis, superficial, microabrasion in, Nov./Dec. 241
- Force(s)
- fracture, effects of denture repair techniques on, July/Aug. 159-161
 - polymerization contraction, of packable composites, July/Aug. 158-159
- Formocresol
- pulpotomy, separate hemostasis step in, Jan./Feb. 26-27
 - sub-base pulpotomy, success rate, Mar./Apr. 65-66
- Fracture
- ceramic, silica chairside coating for, Nov./Dec. 239
 - force, effects of denture repair techniques on, July/Aug. 159-161
 - incisor, primary, acrylic crown for, Mar./Apr. 58
 - mandibular, after third molar removal, Sept./Oct. 220-221
 - resistance in posterior restorations, and adhesive resins, Mar./Apr. 71
 - root
 - of incisors, permanent, effect of rigid splinting on outcomes, Nov./Dec. 259
 - with perforation by inferior dental canal, Nov./Dec. 243-245
 - vertical, after endodontic treatment, May/June 131
 - strength
 - effects of crown/abutment combinations on, July/Aug. 178-179
 - of premolars, endodontically treated, effects of core buildup on, July/Aug. 179-180
 - in violation of biologic width, tooth reattachment for, Nov./Dec. 247-248
- Fractured posts, removal with ultrasonic vibration, May/June 112
- Fuji ionomer type III, amount of fluoride release from, Mar./Apr. 61-62
- Fuji LC improved, amount of fluoride release from, Mar./Apr. 61-62
- Fuji IX GP
- effect on remineralization of interproximal caries in neighboring teeth, Jan./Feb. 29-30
 - microleakage with, Sept./Oct. 226-227
- Fuji Ortho LC, fluoride release by, May/June 124-125
- Fuji II LC intermediate layer, microleakage of Class II composite restorations after, May/June 117
- Furcated molar, root resection *vs.* molar implants for, Mar./Apr. 82-83
- Furcation involvement, class III, management of molars with, July/Aug. 150-151
- Future of Dentistry report, as road map for work force, clinical practice, and other issues, July/Aug. 138
- ## G
- Gag reflex, and table salt, Mar./Apr. 66
- Gagging, during dental care, effect of acupuncture on, Jan./Feb. 6
- Gap(s)
- interfacial, with self-etching primer for dentin bonding, Mar./Apr. 63-64
 - width, marginal, with composite *vs.* ceramic veneers, July/Aug. 161-162
- Gene, sleep apnea, Mar./Apr. 60
- Geometric analysis, 3D, of effects of rest position and width, Mar./Apr. 80
- Geristore, for root-end filling, Jan./Feb. 19-20
- Gingival recession, comparison of 3 treatment techniques, July/Aug. 175
- Glass
- fiber
 - reinforced dentures, inlay fixed partial, clinical performance, 1- and 2-year outcomes, Nov./Dec. 274-275
 - reinforced glass ionomer, short, flexural strength of, Mar./Apr. 63
 - ionomer(s)
 - fluoride release from, amount of, Mar./Apr. 61-62
 - glass fiber-reinforced, short, flexural strength of, Mar./Apr. 63
 - hybrid, new, bond strength and fluoride release, Mar./Apr. 75
 - promote remineralization of interproximal caries in neighboring teeth, Jan./Feb. 29-30
- Glossodynia, due to diabetic neuropathy, May/June 94
- Gloves
- sterile, effect on postextraction complications, Sept./Oct. 221
 - switching to low-protein/nonpowdered gloves reduces latex allergy, Sept./Oct. 214-215
- Glycerol injection, in idiopathic trigeminal neuralgia, long-term results, May/June 119-120
- Gold *vs.* silver-palladium, for implant-supported cast frameworks, Nov./Dec. 259-260
- Gow-Gates injection, middle ear symptoms related to, May/June 91-92
- Graft
- coronoid process, combined with sagittal split osteotomy for correction of TMJ ankylosis, July/Aug. 146-147
 - dermal matrix, acellular, for root coverage, May/June 128-129
- Grafting, bone, mandibular tori for, Jan./Feb. 11
- Gramicidin, in local corticosteroid-antibiotic cream for posttreatment endodontic pain, May/June 115
- Grape juice, purple grape juice remedy, May/June 104
- Greater Taper files, *vs.* ProFiles and stainless steel files in preparation of curved root canals, Jan./Feb. 19
- Green tea, effect on oral cancer cells, Nov./Dec. 265
- Growth, facial, antegonial notch depth does not predict, Nov./Dec. 269
- GT files, in preparation of curved root canals, comparative study, Jan./Feb. 19
- Guided tissue regeneration
- for gingival recession, July/Aug. 175
 - plus XRP for root pathosis, Sept./Oct. 194-195
- Gum
- chewing, antimicrobial, oral health in nursing home residents improved by, May/June 129
 - disease treatment, acupuncture for, July/Aug. 139
- Gutta-percha
- techniques, thermoplasticized, *vs.* lateral condensation, Nov./Dec. 257
 - warm, *vs.* lateral condensation, May/June 114
- ## H
- Halitosis-associated volatile sulfur compounds, oral care products compared for ability to reduce, Jan./Feb. 27
- Hand
- instrumentation *vs.* 2 engine-driven NiTi systems, canal shape compared with, May/June 113
 - over-mouth technique, decrease in teaching of, Mar./Apr. 76
 - scaling and root planing *vs.* Periosonic system, initial clinical results, May/June 111-112
- Head and neck cancer, radiation therapy for, oral care for patients receiving, Mar./Apr. 53-54

- Headgear *vs.* bionator, in early treatment for Class II malocclusion, Sept./Oct. 222-223
- Healing, wound, after lower third molar surgery, effect of flap design on, July/Aug. 171-172
- Health
- medical, effect of menopause and hormone replacement therapy on, Sept./Oct. 201
 - oral (*see* Oral, health)
 - periodontal, effects of removable partial dentures on, Sept./Oct. 228
 - services research, role in evidence-based dentistry, Mar./Apr. 50
 - spending, rising, implications for dentistry, May/June 90
- Heart disease, coronary, risk reduced by elimination of dental infection, Jan./Feb. 39
- Hematologic cancer patients, complications of extraction in, Mar./Apr. 73
- Hemodynamic effects, of lidocaine-epinephrine in patients with cardiovascular disease, July/Aug. 157
- Hemostasis
- agents, local, no cardiovascular effects of, Nov./Dec. 273
 - step, separate, in formocresol pulpotomy, Jan./Feb. 26-27
- Hepatitis B and C, update on, Sept./Oct. 195
- Herpes simplex labialis, recurrent, penciclovir for, Sept./Oct. 225
- Hi-Ceram crowns, long-term survival of, Jan./Feb. 36
- HIV
- associated aphthous ulcers, recurrent, low-dose thalidomide in prevention of, May/June 121-122
 - associated oral warts, intralesional interferon- α for, July/Aug. 148
 - infected patients, effects of training program on communication with, July/Aug. 157-158
 - update on, Sept./Oct. 195
- Home
- at-home bleaching causing sensitivity, potassium nitrate and fluoride reduce, July/Aug. 162
 - nursing home residents, antimicrobial chewing gum improves oral health in, May/June 129
- Honesty, protecting our reputation for, Mar./Apr. 59
- Honey, as dental treatment, July/Aug. 152
- Hormone replacement therapy in menopausal women
- effects on health, medical and oral, Sept./Oct. 201
 - effects on rate of painful and dry mouth, Mar./Apr. 73-74
- Hospital/special care dentistry, Jan./Feb. 13-14
- Human immunodeficiency virus (*see* HIV)
- Hybrid materials, as sealants in children, Jan./Feb. 31-32
- Hybridized dentin permeability, effect of impression materials on, Jan./Feb. 15-16
- Hydrocolloid, irreversible and reversible, effects on hybridized dentin permeability, Jan./Feb. 16
- Hydrogen peroxide
- bleaching strips, color change with, retention at follow-up, Nov./Dec. 257-258
 - 35%, in-office whitening with, effect of light-curing on results of, Nov./Dec. 258
- Hypersensitivity, dentin
- cervical, treatment with dentin bonding agent *vs.* resin emulsion, Sept./Oct. 213
 - effect of potassium-containing toothpaste on, May/June 126-127
 - laser treatment for, Sept./Oct. 223
- Hytac, localized wear resistance of, May/June 109-110
- I
- Ibuprofen and aspirin therapy, Sept./Oct. 207
- Imaging
- digital
 - current status of, July/Aug. 151-152
 - Digora system, for diagnosis of peri-implant bone lesions, July/Aug. 178
 - magnetic resonance
 - in painful TMJs, Jan./Feb. 38-39
 - in TMJ internal derangement and osteoarthritis, July/Aug. 183
- Immunodeficiency virus, human (*see* HIV)
- Impact handling, of mouthguard material, air inclusions improve, Nov./Dec. 246-247
- Impacted molar, lower third, risk factors for paresthesia after surgery for, Mar./Apr. 72
- Implant(s)
- to abutment hexagon, orientation of, effect of screw tightening on, Sept./Oct. 216
 - cast accuracy with 3 different die systems, Sept./Oct. 216-217
 - cochlear, effect of electrosurgery on, July/Aug. 166
 - configuration, effects on bone stresses in edentulous posterior mandible, July/Aug. 167
 - failure rates, effect of menopause and estrogen replacement therapy on, May/June 116
 - immediate, technique for resected mandibular molars, July/Aug. 142-144
 - mandibular, immediate loading of, Jan./Feb. 22-23
 - mobile shock-absorbing, 6-year experience, July/Aug. 167-168
 - molar, *vs.* root resection for furcated molar, Mar./Apr. 82-83
 - prosthodontics, passive fit in, Jan./Feb. 21-22
 - supported cast frameworks, gold *vs.* silver-palladium, Nov./Dec. 259-260
 - supported fixed partial dentures, retrievable cement-retained, fit and retentive strength of, Mar./Apr. 68
 - therapy in older adults, Sept./Oct. 215
 - tooth-implant-connected prostheses in partially edentulous patients, long-term follow-up, Jan./Feb. 34-35
 - unesthetic, repositioning of, Mar./Apr. 51-52
- Implantation, ionic, wear resistance of endodontic instruments increased by, Mar./Apr. 64
- Implanting, of primary incisors, Mar./Apr. 60
- Impression materials
- effects on hybridized dentin permeability, Jan./Feb. 15-16
 - wettability of, disinfection alters, Mar./Apr. 66-67
 - technique for constructing partial dentures, Jan./Feb. 33-34
- In-Ceram crowns, long-term survival of, Jan./Feb. 36
- Incisor(s)
- crown inclination, disposable device for measurement of, Sept./Oct. 210
- maxillary
- with approximal caries, effects of endodontic posts in, May/June 130-131
 - loss in children, premature, esthetic space maintainer for, July/Aug. 149-150
- migrated, with infrabony defects, combined periodontal-orthodontic approach to, July/Aug. 172-173
- permanent
- lateral, deeper root lesions in, *vs.* deciduous canines, May/June 93
 - root-fractured, effect of rigid splinting on outcomes, Nov./Dec. 259
- primary
- crown placement on, strip, technique, Nov./Dec. 245-246
 - fractured, acrylic crown for, Mar./Apr. 57
 - implanting of, Mar./Apr. 60
- Inclination, incisor crown, disposable device for measurement, Sept./Oct. 210
- Infection
- dental, elimination of, and reduction of coronary heart disease risk, Jan./Feb. 39
 - odontogenic, dangers of, Jan./Feb. 9-10
- Infrabony defects, migrated incisors with, combined periodontal-orthodontic approach to, July/Aug. 172-173
- Injection
- blood, for recurrent TMJ dislocation, May/June 103
 - glycerol, in idiopathic trigeminal neuralgia, long-term results, May/June 119-120
 - Gow-Gates, middle ear symptoms related to, May/June 91-92
- Inlay fixed partial dentures, glass fiber-reinforced, clinical performance of, 1- and 2-year outcomes, Nov./Dec. 274-275
- In-office whitening, with 35% hydrogen peroxide, effect of light-curing on results of, Nov./Dec. 258
- INR values, in prediction of bleeding after extraction in patients on oral anticoagulants, Sept./Oct. 222
- Instatemp, flexural strength of, Sept./Oct. 209

Instruments

- endodontic, wear resistance of, ionic implantation increases, Mar./Apr. 64
- hand, *vs.* 2 engine-driven NiTi systems, canal shape compared with, May/June 113
- nickel-titanium rotary, current status of, July/Aug. 141-142

Insurance

- company practice, dentists' discussion with patients about, July/Aug. 155
- dental, dealing with, July/Aug. 153

Integrity, flexural strength of, Sept./Oct. 209

Interfacial

- gaps with self-etching primer for dentin bonding, Mar./Apr. 63-64
- research narrows gap between dental and medical research, Nov./Dec. 238

Interferon- α , intralesional, for HIV-associated oral warts, July/Aug. 148

Interleukin-6 and -8 production, effect of nicotine and lipopolysaccharide on, Mar./Apr. 77-78

Intermediate layers, effect on microleakage in Class II composite restorations, May/June 117

Internet, reliable dental information on, Jan./Feb. 8

Intraoral

- camera system in analysis of toothbrush performance, Mar./Apr. 78
- paresthesia due to periapical disease, July/Aug. 140-141

Investment, return on, of dental specialization, July/Aug. 176

Invisalign, Mar./Apr. 60

Iodine-PVP, adjunct, effect on outcomes of nonsurgical treatment for periodontitis, May/June 127

Ionic implantation, wear resistance of endodontic instruments increased by, Mar./Apr. 64

Ionomers, glass (see Glass, ionomers)

IPS Empress veneers, marginal gap width with, July/Aug. 161-162

IRM

- vs.* Cavidentin as temporary endodontic fillings, July/Aug. 142
- vs.* compomers for root-end filling, Jan./Feb. 19-20

J

Jaw

- movements, horizontal, role of lateral pterygoid muscle in controlling, May/June 121
- pain, acetaminophen-induced liver toxicity in patient with, Mar./Apr. 58-59

Jet, flexural strength of, Sept./Oct. 209

Joint, temporomandibular (see Temporomandibular joint)

Juice, purple grape juice remedy, May/June 104

K

Karwetzky activator oral appliance, for sleep apnea, 2-year follow-up, Nov./Dec. 276-277

Ketac-Molar Aplicap, effect on remineralization of interproximal caries in neighboring teeth, Jan./Feb. 29-30

Ketac-Silver, amount of fluoride release from, Mar./Apr. 61-62

KO Tray system, implant cast accuracy with, Sept./Oct. 216-217

L

Laser

CO₂, effect on dental hard tissues, July/Aug. 169

fluorescence in management of occlusal caries, May/June 105-106

Nd:YAG

bacteria elimination from root canals with, Nov./Dec. 260

effect on temperature in peri-implant bone, Mar./Apr. 67

treatment for hypersensitive dentine, Sept./Oct. 223

Latex allergy, switching to

low-protein/nonpowdered gloves reduces, Sept./Oct. 214-215

Lawsuits, why do patients sue? Jan./Feb. 30-31

Lead, effect on caries risk, May/June 105

Leakage

endotoxin, prevention of, July/Aug. 165

microleakage (see Microleakage)

Leukemia patients, complications of extraction in, Mar./Apr. 73

Leukoplakia, oral, sanguinaria-related, characteristics of, July/Aug. 170-171

Licensure process, clinical, elimination of patients in, Mar./Apr. 46

Lichen planus, and allergy to dental metals, May/June 122-123

Lidocaine

-containing teething gels, Jan./Feb. 12

-epinephrine, hemodynamic effects in patients with cardiovascular disease, July/Aug. 157

infiltration test in diagnosis of elongated styloid process, Sept./Oct. 220

Lifesavers

dental, July/Aug. 136-137

dentists as, tips for working with physicians, Sept./Oct. 189

Light Bond, reduces demineralization around orthodontic brackets, Jan./Feb. 29

Light-cured *vs.* self-cured composites, direction of polymerization shrinkage in, Jan./Feb. 16-17

Light-curing, effect on results of in-office whitening with 35% hydrogen peroxide, Nov./Dec. 258

Lignocaine (see Lidocaine)

Lingual

nerve

injury, microneurosurgery for, Nov./Dec. 266

paresthesia after surgery for impacted lower third molar, Mar./Apr. 72

recession on mandibular anterior teeth as complication of tongue piercing, Sept./Oct. 208

Lipopolysaccharide, effect on proinflammatory cytokine production, Mar./Apr. 77-78

Liquid dentifrice, triclosan-containing, clinical effectiveness, Sept./Oct. 226

Listerine

Antiseptic, antifungal efficacy of, Jan./Feb. 28

oral desquamation and ulceration due to, July/Aug. 147

Liver toxicity, acetaminophen-induced, in patient with jaw pain, Mar./Apr. 58-59

Loading, occlusal, effects on cuspal deformation, Mar./Apr. 68-70

Luting, FlexiFlow, and shorter posts, May/June 106-107

Luxatemp, flexural strength of, Sept./Oct. 209

M

Magnet(s) and corticotomy, for overerupted molars, Mar./Apr. 56-57

Magnetic resonance imaging

in painful TMJs, Jan./Feb. 38-39

in TMJ internal derangement and osteoarthritis, July/Aug. 183

Magnetostriuctive *vs.* piezoelectric ultrasonic scalers, performance of, Jan./Feb. 17-18

Malocclusion, Class II, early treatment with headgear *vs.* bionator, Sept./Oct. 222-223

Mandibular

fracture after third molar removal, Sept./Oct. 220-221

implants, immediate loading of, Jan./Feb. 22-23

molars, resected, immediate implant technique for, July/Aug. 142-144

teeth, anterior, lingual recession on, as complication of tongue piercing, Sept./Oct. 208

tori for bone grafting, Jan./Feb. 11

Marginal

adaptation in fixed partial denture

abutments, selective bonding technique improves, Mar./Apr. 83-84

gap width with composite *vs.* ceramic veneers, July/Aug. 161-162

integrity of composite, effect of multiple applications of bonding agent on, Nov./Dec. 253

Margins, open, on September 11th, Jan./Feb. 4-5

Marrow transplantation, for children with cancer, orthodontic treatment after, May/June 126

Maxillary

canine, ankylosed, combination approach to, in child, May/June 97-99

dentures, removable partial, improving esthetics of, Sept./Oct. 204-205

incisor(s)

with approximal caries, effects of endodontic posts in, May/June 130-131

loss in children, premature, esthetic space maintainer for, July/Aug. 149-150

Medical

education, integration with dental education, converging trends predict, Nov./Dec. 254-255

health, effect of menopause and hormone replacement therapy on, Sept./Oct. 201
management of anorexia and bulimia nervosa, Sept./Oct. 198-200

vs. dental research, Nov./Dec. 238

Medications, asthma, May/June 96

Memory, neurobiology of, July/Aug. 162-164

Menopausal women, hormone replacement in effects on health, medical and oral, Sept./Oct. 201

effects on rate of painful and dry mouth, Mar./Apr. 73-74

Mercury, environmental, dental waste water as source of, Jan./Feb. 40

Mesiodistal tooth angles, accuracy of panoramic measurements of, Sept./Oct. 228-229

Mesiolingual canal orifice, dental operating microscope in detection of, Sept./Oct. 193-194

Metabolic studies, of fluoridated rice, July/Aug. 168-169

Metal(s)

ceramic crowns with titanium abutments, effects on fracture strength, July/Aug. 178-179

dental, allergy to, in patients with lichen planus, May/June 122-123
release from orthodontic appliances, May/June 124

Metamorphosis, calcific, diagnosis and treatment, Jan./Feb. 7-8

Methacrylate-based resins, flexural strength of, Sept./Oct. 209

Microabrasion, in superficial fluorosis, Nov./Dec. 241

Microleakage

in Class II composite restorations, effect of intermediate layers on, May/June 117
enamel and dentin, with all-in-one adhesives, Sept./Oct. 210-211
with Fuji IX GP, Sept./Oct. 226-227

Microneurosurgery, for inferior alveolar or lingual nerve injury, Nov./Dec. 266

Microscope, dental operating, Sept./Oct. 193
in detection of mesiolingual canal orifice, Sept./Oct. 193-194

in management of endodontic therapy in dens invaginatus, Nov./Dec. 240-241

Milled ceramic or titanium abutments, crowns with, Ceram or Celay feldspathic, effects on fracture strength, July/Aug. 178-179

Mineral trioxide, *vs.* other root end filling materials in prevention of endotoxin leakage, July/Aug. 165

Mint, coolness of, Nov./Dec. 250

Miracle-Mix, amount of fluoride release from, Mar./Apr. 61-62

Mobile implants, shock-absorbing, 6-year experience, July/Aug. 167-168

Molar(s)

erupting, effect of chlorhexidine wax on fissure colonization in, Nov./Dec. 272
furcated, root resection *vs.* molar implants for, Mar./Apr. 82-83

with furcation involvement, Class III, management, July/Aug. 150-151

mandibular, resected, immediate implant technique for, July/Aug. 142-144

overerupted, corticotomy and magnets for, Mar./Apr. 56-57

primary, electrocoagulation for pulpotomy in, Nov./Dec. 263-264

third, lower

impacted, risk factors for paresthesia after surgery for, Mar./Apr. 72

removal, mandibular fracture after, Sept./Oct. 220-221

surgery, wound healing after, effect of flap design on, July/Aug. 171-172

Monopoly, effect on surface integrity and softness of tissue conditioners, Sept./Oct. 227

Mortality

associated with odontogenic infection, Jan./Feb. 9-10

cardiovascular, and poor oral health, Mar./Apr. 74

Mouth

dry

caries prevention in, CD-CP *vs.* fluoride mouthrinses for, Nov./Dec. 251-252
in menopausal women, effect of hormone replacement on rate of, Mar./Apr. 73-74

painful, in menopausal women, effect of hormone replacement on rate of, Mar./Apr. 73-74

Mouthguard material, air inclusions improve impact handling of, Nov./Dec. 246-247

Mouthrinse (see Mouthwash)

Mouthwash

antimicrobial, antifungal efficacy of, Jan./Feb. 28

CD-CP *vs.* fluoride, for caries prevention in dry mouth, Nov./Dec. 251-252

clobetasol, for severe oral erosive lesions, Nov./Dec. 268

oral desquamation and ulceration due to, July/Aug. 147-148

Scope, diluted, effect on bond strength of resin-based composites, Jan./Feb. 15

Viadent, and sanguinaria-related oral leukoplakia, July/Aug. 170-171

MRI

in painful TMJs, Jan./Feb. 38-39

in TMJ internal derangement and osteoarthritis, July/Aug. 183

MS Coat, *vs.* Scotchbond 1 for treatment of cervical dentin hypersensitivity, Sept./Oct. 213

Mucosa, oral, trauma, due to lost polishing disks, Mar./Apr. 52-53

Multiple myeloma patients, complications of extraction in, Mar./Apr. 73

Muscle, lateral pterygoid, role in controlling horizontal jaw movements, May/June 121

Musculoskeletal symptoms, rates and risk factors in dentists, Sept./Oct. 217-219

Myeloma, multiple, complications of extraction in patients with, Mar./Apr. 73

N

Nd:YAG laser

bacteria elimination from root canals with, Nov./Dec. 260

effect on temperature in peri-implant bone, Mar./Apr. 67

Neck cancer, radiation therapy for, oral care for patients receiving, Mar./Apr. 53-54

Necrotic teeth, pain after treatment for, effect of apical trephination on, Jan./Feb. 18-19

Neomycin, in local corticosteroid-antibiotic cream for posttreatment endodontic pain, May/June 115

Nerve

alveolar, inferior (see Alveolar, nerve, inferior)

lingual

injury, microneurosurgery for, Nov./Dec. 266

paresthesia, after surgery for impacted lower third molar, Mar./Apr. 72

Neuralgia, trigeminal

case report, Mar./Apr. 54-55

idiopathic, glycerol injection in, long-term results, May/June 119-120

Neurobiology, of memory, July/Aug. 162-164

Neuropathy, diabetic, causing glossodynia, May/June 94

Nickel levels, measurable, in saliva and serum in orthodontic patients, May/June 123

Nickel-titanium

instruments

endodontic, ionic implantation increases wear resistance of, Mar./Apr. 64

rotary, current status of, July/Aug. 141-142

systems, 2 engine-driven, *vs.* hand instrumentation, canal shape compared with, May/June 113

Nicotine, effect on proinflammatory cytokine production, Mar./Apr. 77-78

NiTi (see Nickel-titanium)

Nursing home residents, antimicrobial chewing gum improves oral health in, May/June 129

Nystatin, in local corticosteroid-antibiotic cream for posttreatment endodontic pain, May/June 115

O

Obturation, prevents infiltration of endotoxin into root canals, Nov./Dec. 256

Occlusal

appliances, evidence-based review, Mar./Apr. 84

caries, new techniques for management, May/June 105-106

loading, effects on cuspal deformation, Mar./Apr. 68-70

- Occlusion
 posterior, in orthodontic patients, assessment with optical scanning technique, May/June 125
 vertical dimension of, increasing improves patient appearance, Sept./Oct. 212
- Odontogenic infection, dangers of, Jan./Feb. 9-10
- One Coat Bond, tensile bond strength to dentin, May/June 109
- One-Step
 adhesive-dentin interface of, Nov./Dec. 252-253
 as secondary seal after root canal treatment, Mar./Apr. 65
- Online continuing dental education courses, evaluation of, Nov./Dec. 255-256
- Opalescence, effect on enamel microhardness, Jan./Feb. 20-21
- Operating microscope (see Microscope, dental operating)
- Optibond Solo, mode of failure altered by, May/June 107-108
- Optical scanning technique, for assessment of posterior occlusion in orthodontic patients, May/June 125
- Oral
 appliance (see Appliance, oral)
 cancer (see Cancer, oral)
 care
 for patients receiving radiation therapy for head and neck cancer, Mar./Apr. 53-54
 products compared for ability to reduce halitosis-associated volatile sulfur compounds, Jan./Feb. 27
 complications
 of eating disorders, Sept./Oct. 200
 of tongue piercing, Sept./Oct. 208
 desquamation due to oral health care products, July/Aug. 147-148
 health
 care products causing oral desquamation and ulceration, July/Aug. 147-148
 effects of menopause and hormone replacement therapy on, Sept./Oct. 201
 effects of sugar on, July/Aug. 144
 in nursing home residents improved by antimicrobial chewing gum, May/June 129
 poor, and cardiovascular mortality, Mar./Apr. 74
 lesions
 erosive, severe, clobetasol mouthwash for, Nov./Dec. 268
 suspicious, toluidine blue for evaluation of, Jan./Feb. 25
 leukoplakia, sanguinaria-related, characteristics of, July/Aug. 170-171
 mucosal trauma due to lost polishing disks, Mar./Apr. 52-53
 ulceration due to oral health care products, July/Aug. 147-148
 warts, HIV-associated, intralesional interferon- α for, July/Aug. 148
- Ormco copper NiTi, metal release from, May/June 124
- Ormco stainless steel archwires, metal release from, May/June 124
- Orthodontic
 adhesives, fluoride release by, May/June 124-125
 appliances, metal release from, May/June 124
 brackets
 bonding of, use of self-etching primer in, Jan./Feb. 28
 demineralization around, fluoride-releasing resin composite reduces, Jan./Feb. 29
 correction, importance and measurement of seated condylar position in, Nov./Dec. 268-269
 patients
 nickel and chromium levels in saliva and serum in, measurable, May/June 123
 occlusion in, posterior, assessment with optical scanning technique, May/June 125
 -periodontal approach, combined, to migrated incisors with infrabony defects, July/Aug. 172-173
 treatment after bone marrow transplantation for children with cancer, May/June 126
- Oscillating systems, for Class II cavity preparation, Nov./Dec. 254
- Osteitis, postextraction alveolar, SaliCept Patch lowers risk of, Nov./Dec. 265-266
- Osteoarthritis, temporomandibular joint internal derangement and, MRI findings, July/Aug. 183
- Osteogenesis, distraction, after surgical block osteotomy for ankylosed maxillary canine in child, May/June 97-99
- Osteotomy
 sagittal split, combined with coronary process grafts for correction of TMJ ankylosis, July/Aug. 146-147
 single-tooth, improves technique of intentional replantation, Nov./Dec. 240
 surgical block, and distraction osteogenesis for ankylosed maxillary canine in child, May/June 97-99
- Outer space, and teeth, May/June 104
- Overcutting, in esthetic dentistry, July/Aug. 184
- Overdentures, in children with craniofacial anomalies, May/June 100-101
- Oxycodone/acetaminophen, *vs.* valdecoxib for postoperative analgesia, Nov./Dec. 272-273
- P**
- Pain
 endodontic, posttreatment
 corticosteroid-antibiotic cream for, local, May/June 115
 after initial treatment *vs.* retreatment, May/June 113-114
- experience during endodontic treatment, effect of patient sex and age on, July/Aug. 173-174
- facial
 chronic, clinical approach to, Mar./Apr. 57
 idiopathic, implications for diagnosis and treatment, Jan./Feb. 11-12
 jaw, acetaminophen-induced liver toxicity in patient with, Mar./Apr. 58-59
 after treatment for necrotic teeth, effect of apical trephination on, Jan./Feb. 18-19
- Painful
 mouth in menopausal women, effect on hormone replacement on rate of, Mar./Apr. 73-74
 TMJ, MRI findings in, Jan./Feb. 38-39
- Pallag M silver-palladium alloy, *vs.* Chicago IV gold alloy for implant-supported cast frameworks, Nov./Dec. 259-260
- Panoramic measurements, of mesiodistal tooth angles, accuracy of, Sept./Oct. 228-229
- Paradental cyst, findings of, May/June 118
- Parenting styles, changes in, effects on behavioral management in pediatric dentistry, Sept./Oct. 208-209
- Paresthesia
 alveolar nerve, inferior, linked to dentigerous cyst, Nov./Dec. 243
 intraoral, due to periapical disease, July/Aug. 140-141
 after surgery for impacted lower third molar, risk factors for, Mar./Apr. 72
- Parotitis, chronic, diagnostic approach, July/Aug. 149
- Patch, SaliCept, effect on risk of postextraction alveolar osteitis, Nov./Dec. 265-266
- Pathogens, bloodborne, update on, Sept./Oct. 195-196
- Patients
 age of, effect on experience of pain during endodontic treatment, July/Aug. 173-174
 appearance improved by increasing vertical dimension of occlusion, Sept./Oct. 212
 dentists' discussion about insurance company practices with, July/Aug. 155
 elimination in clinical licensure process, Mar./Apr. 46
 sex of, effect on experience of pain during endodontic treatment, July/Aug. 173-174
 TMD, plea for, Sept./Oct. 188-189
 why do patients sue? Jan./Feb. 30-31
- Pediatric
 (See also Children)
 dental treatment under general anesthesia, outcomes, July/Aug. 174-175
 dentists, behavioral management techniques of, effects of change in parenting styles on, Sept./Oct. 208-209
- Penciclovir, for recurrent herpes simplex labialis, Sept./Oct. 225
- Penicillin-sensitive *Streptococcus intermedius* odontogenic infection, Jan./Feb. 9-10
- Perforation, by inferior dental canal, root fracture with, Nov./Dec. 243-245

- Perform, effect on wettability of impression materials, Mar./Apr. 66-67
- Periapical
disease as cause of intraoral paresthesia, July/Aug. 140-141
lesions, detection with film *vs.* digital radiography, Mar./Apr. 81-82
- Peridex, antifungal efficacy of, Jan./Feb. 28
- Peri-implant bone
lesions, Digora digital imaging system for diagnosis of, July/Aug. 178
temperature in, unipolar electrosurgery raises, Mar./Apr. 67
- Peri-implantitis, retrograde, treatment, Jan./Feb. 9
- Periodontal
care, effect of population trends on, Nov./Dec. 278
disease
advanced, surgical *vs.* nonsurgical treatment, short- and long-term outcomes, Mar./Apr. 77
preterm birth and, Jan./Feb. 30
health of abutment and non-abutment teeth, effects of removable partial dentures on, Sept./Oct. 228
-orthodontic approach, combined, to migrated incisors with infrabony defects, July/Aug. 172-173
regenerative technique, combined, for gingival recession, July/Aug. 175
- Periodontitis, nonsurgical treatment, effect of adjunct PVP-iodine on outcomes, May/June 127
- Periosonic system, *vs.* hand scaling and root planing, initial clinical results, May/June 111-112
- Permaseal, effect on surface integrity and softness of tissue conditioners, Sept./Oct. 227
- Peroxide
carbamide
bleaching systems, 10%, effects on enamel microhardness, Jan./Feb. 20-21
gel, nonvital tooth bleaching with, Nov./Dec. 242
hydrogen
bleaching strips, color change with, retention at follow-up, Nov./Dec. 257-258
35%, in-office whitening with, effect of light-curing on results of, Nov./Dec. 258
- Phosphoric acid pumice, microabrasion with, in superficial fluorosis, Nov./Dec. 241
- Photo-Core, hand-made, effect on fracture strength of endodontically treated premolars, July/Aug. 179-180
- Photocuring, plasma-arc, effect on polymerization shrinkage, May/June 111
- Photography, digital, characteristics and uses in dentistry, May/June 92
- Physicians, tips for working with, Sept./Oct. 189
- Piercing, tongue
long and short of, Nov./Dec. 250
- oral complications of, Sept./Oct. 208
- Piezoelectric *vs.* magnetostrictive ultrasonic scalers, performance of, Jan./Feb. 17-18
- Piezon Cavity System, for Class II cavity preparation, Nov./Dec. 254
- Pindex system, implant cast accuracy with, Sept./Oct. 216-217
- Planing, root, and hand scaling, *vs.* Periosonic system, initial clinical results, May/June 111-112
- Plaque
effects of mouthrinse on,
amine-fluoride-triclosan, Nov./Dec. 274
effects of warming chlorhexidine on, Sept./Oct. 224-225
subgingival, effect on response to locally delivered doxycycline, Sept./Oct. 224
- Plasma-arc photocuring, effect on polymerization shrinkage, May/June 111
- Polishing disks, lost, causing oral mucosal trauma, Mar./Apr. 52-53
- Polyether, effect on hybridized dentin permeability, Jan./Feb. 15-16
- Polyethylene ribbons, for reconstruction of decayed primary teeth, May/June 99
- Polymerization
contraction forces of packable composites, July/Aug. 158-159
shrinkage
direction in light-cured *vs.* self-cured composites, Jan./Feb. 16-17
effect of plasma-arc photocuring on, May/June 111
- Polysulfide, effect on hybridized dentin permeability, Jan./Feb. 16
- Population
changes and increasing demand for dentures, Sept./Oct. 190
trends, effect on periodontal and restorative care, Nov./Dec. 278
- Post(s)
endodontic, effects in maxillary incisors with approximal caries, May/June 130-131
fractured, removal with ultrasonic vibration, May/June 112
shorter, and FlexiFlow luting, May/June 106-107
- Postmenopausal women, estrogen replacement therapy in, effect on implant failure rates, May/June 116
- Postoperative analgesia, valdecoxib *vs.* oxycodone/acetaminophen for, Nov./Dec. 272-273
- Posture, sleep, effect on response to oral appliance therapy, Jan./Feb. 36-37
- Potassium
-containing toothpaste, effect on dentine hypersensitivity, May/June 126-127
nitrate reduces sensitivity due to at-home bleaching, July/Aug. 162
- Povidone-iodine, adjunct, effect on outcomes of nonsurgical treatment for periodontitis, May/June 127
- Pow-R system, *vs.* hand instrumentation, canal shape compared with, May/June 113
- Practice
clinical, Future of Dentistry report as road map for, July/Aug. 138
dental
bloodborne pathogens and, Sept./Oct. 195-196
effects of utilization review on, Jan./Feb. 13
embezzlement in, warning signs of, Sept./Oct. 204
general, reasons for restorations in, Mar./Apr. 70
vital signs of, checking, Sept./Oct. 203-204
- Prebooking, as proactive approach to continuing care, Sept./Oct. 192
- Prema Compound, microabrasion with, in superficial fluorosis, Nov./Dec. 241
- Premolar
endodontically treated, effects of core buildup on fracture strength of, July/Aug. 179-180
second, third root canal in, case report, Mar./Apr. 47-48
- Preterm birth, and periodontal disease, Jan./Feb. 30
- Prime & Bond NT intermediate layer, microleakage of Class II composite restorations after, May/June 117
- Prime & Bond 2.1
adhesive-dentin interface of, Nov./Dec. 252-253
microleakage with, enamel and dentin, Sept./Oct. 210-211
- Primers, self-etching
bond strength of, enamel and dentin, May/June 110
for dentin bonding, interfacial gaps with, Mar./Apr. 63-64
use in bonding orthodontic brackets, Jan./Feb. 28
- ProFile(s)
system *vs.* hand instrumentation, canal shape compared with, May/June 113
vs. GT files and stainless steel files in preparation of curved root canals, Jan./Feb. 19
- Profin system, facilitates approach to approximal and subgingival areas, July/Aug. 139-140
- Prompt L-Pop
interfacial gaps with, Mar./Apr. 63-64
microleakage with, enamel and dentin, Sept./Oct. 210-211
use in bonding of orthodontic brackets, Jan./Feb. 28
- Prosthesis
temporomandibular joint, new, Sept./Oct. 205-206
tooth-implant-connected, in partially edentulous patients, long-term follow-up, Jan./Feb. 34-35
- Prosthetic patient, vital pulp therapy in, May/June 101-103
- Prosthetics, implant, passive fit in, Jan./Feb. 21-22

Protect Liner F, mode of failure altered by, May/June 107-108

Protemp Garant, flexural strength of, Sept./Oct. 209

Protemp 3 Garant, flexural strength of, Sept./Oct. 209

ProviPont, flexural strength of, Sept./Oct. 209

Provitex, flexural strength of, Sept./Oct. 209

Pterygoid muscle, lateral, role in controlling horizontal jaw movements, May/June 121

Pulp

- capping, modified Bioglass formula in, May/June 120
- of carious teeth, detection of endotoxin in, Jan./Feb. 26
- dentine complex reactions, July/Aug. 145
- injury and repair, effects of cavity RDT on, Nov./Dec. 262
- therapy
 - indirect, calcium hydroxide and good outcomes, Nov./Dec. 270-271
 - vital, in prosthodontic patient, May/June 101-103

Pulpdent TempCanal paste, elimination of *E faecalis* from root dentin with, July/Aug. 165-166

Pulpotomy

- formocresol, separate hemostasis step in, Jan./Feb. 26-27
- formocresol sub-base, success rate, Mar./Apr. 65-66
- in molars, primary, electrocoagulation for, Nov./Dec. 263-264

Pumice

- phosphoric acid, microabrasion with, in superficial fluorosis, Nov./Dec. 241
- prophylaxis before sealant placement, Nov./Dec. 270

Pumped Diodium-Nd:YAG laser, for eliminating bacteria from root canals, Nov./Dec. 260

Purple grape juice remedy, May/June 104

PVP-iodine, adjunct, effect on outcomes of nonsurgical treatment for periodontitis, May/June 127

Python, fluoride release by, May/June 124-125

R

Radiation therapy, for head and neck cancer, oral care for patients receiving, Mar./Apr. 53-54

Radiography

- in diagnosis of benign cementoblastoma, Jan./Feb. 10
- digital *vs.* film
 - for assessment of canal working length, Nov./Dec. 276
 - periapical lesions detected with, Mar./Apr. 81-82
- panoramic
 - accuracy of measurements of mesiodistal tooth angles by, Sept./Oct. 228-229
 - in patients with TMD symptoms, Mar./Apr. 81

- study of technical acceptability of titanium castings, Nov./Dec. 275

Radiotracer study, of IRM *vs.* Cavidentin as temporary endodontic fillings, July/Aug. 142

Reattachment, tooth, for fracture in violation of biologic width, Nov./Dec. 247-248

Reconstruction, of decayed primary teeth, polyethylene ribbons for, May/June 99

Reflex, gag, and table salt, Mar./Apr. 66

Rembrandt, effect on enamel microhardness, 20-21

Remineralization, of interproximal caries in neighboring teeth, effect of glass ionomers on, Jan./Feb. 29-30

Replantation, intentional, single-tooth osteotomy improves technique of, Nov./Dec. 240

Repositioning, of unesthetic implant, Mar./Apr. 51-52

Research

- dental *vs.* medical, Nov./Dec. 238
- health services, role in evidence-based dentistry, Mar./Apr. 50

Resin(s)

- adhesive
 - fracture resistance in posterior restorations with, Mar./Apr. 71
 - as secondary seals after root canal treatment, Mar./Apr. 65
- based composites, bond strength of, effect of Scope solution on, Jan./Feb. 15
- composite, fluoride-releasing, effect on demineralization around orthodontic brackets, Jan./Feb. 29
- emulsion *vs.* dentin bonding agent for treatment of cervical dentin hypersensitivity, Sept./Oct. 213
- provisional, flexural strength of, Sept./Oct. 209

Resolution 64H, Mar./Apr. 46

Rest position and width, effects of, 3D geometric analysis of, Mar./Apr. 80

Restoration(s)

- amalgam, bonded
 - complex, long-term performance, Jan./Feb. 24-25
 - follow-up, 5-year clinical, Nov./Dec. 261-262
- Class I, II, and V, prevention of tooth sensitivity after, Sept./Oct. 202
- composite, Class II, effect of intermediate layers on microleakage in, May/June 117
- in general dental practice, reasons for, Mar./Apr. 70
- of incisor, fractured primary, acrylic crown for, Mar./Apr. 57
- posterior, fracture resistance in, and adhesive resins, Mar./Apr. 71

Restorative

- care, effect of population trends on, Nov./Dec. 278
- procedures, children's behavior during, effect of initial noninvasive visit on, Mar./Apr. 75-76

Return on investment, of dental specialization, July/Aug. 176

Revolution intermediate layer, microleakage of Class II composite restorations after, May/June 117

Ribbons, polyethylene, for reconstruction of decayed primary teeth, May/June 99

Rice, fluoridated, initial bioavailability and metabolic studies, July/Aug. 168-169

Root

- canal(s)
 - bacteria elimination from, Nd:YAG laser for, Nov./Dec. 260
 - curved, preparation, comparison of GT files in, Jan./Feb. 19
 - disinfection, chlorhexidine for, Sept./Oct. 211
 - endotoxin infiltration into, obturation prevents, Nov./Dec. 256
 - third, in second premolar, case report, Mar./Apr. 47-48
 - treatment, adhesive resins as secondary seals after, Mar./Apr. 65
- cementum in cleidocranial dysplasia, Mar./Apr. 71-72
- coverage
 - combined surgical procedure using free connective tissue for, May/June 128
 - dermal matrix graft for, acellular, May/June 128-129
- dentin, thin calcium hydroxide preparations eliminate *E faecalis* from, July/Aug. 165-166
- end filling
 - compomers for, Jan./Feb. 19-20
 - materials in prevention of endotoxin leakage, July/Aug. 165
- fracture (see Fracture, root)
- lesions, deeper, in deciduous canines *vs.* permanent lateral incisors, May/June 93
- pathosis, XRP plus guided tissue regeneration for, Sept./Oct. 194-195
- planing and hand scaling *vs.* Periosonic system, initial clinical results, May/June 111-112
- resection *vs.* molar implants for furcated molar, Mar./Apr. 82-83
- resorption, Mar./Apr. 60

S

SaliCept Patch, effect on risk of postextraction alveolar osteitis, Nov./Dec. 265-266

Saliva, of orthodontic patients, measurable nickel and chromium levels in, May/June 123

Salt, table, and gag reflex, Mar./Apr. 66

Sanguinaria-related oral leukoplakia, characteristics of, July/Aug. 170-171

Scalers, ultrasonic, magnetostrictive *vs.* piezoelectric, performance of, Jan./Feb. 17-18

Scaling, hand, and root planing, *vs.* Periosonic system, initial clinical results, May/June 111-112

- Scanning technique, optical, for assessment of posterior occlusion in orthodontic patients, May/June 125
- Schools, dental, stress and suicide in, Jan./Feb. 23-24
- Scope solution, effect on bond strength of resin-based composites, Jan./Feb. 15
- Scotchbond Multi-Purpose Plus, enamel and dentin bond strength of, May/June 110
- Scotchbond 1
adhesive-dentin interface of, Nov./Dec. 252-253
vs. MS Coat for treatment of cervical dentin hypersensitivity, Sept./Oct. 213
- Screw tightening, effect on orientation of implant to abutment hexagon, Sept./Oct. 216
- Seal(s), secondary, after root canal treatment, adhesive resins as, Mar./Apr. 65
- Sealants
hybrid materials as, in children, Jan./Feb. 31-32
preparation of, comparison of techniques, Nov./Dec. 270
- Sealing, tooth, after incomplete caries removal, for deep carious lesions, Sept./Oct. 229-230
- Seated condylar position, importance and measurement in orthodontic correction, Nov./Dec. 268-269
- Self-cured *vs.* light-cured composites, direction of polymerization shrinkage in, Jan./Feb. 16-17
- Self-etching primers (see Primers, self-etching)
- Sensitivity
at-home bleaching causing, potassium nitrate and fluoride reduce, July/Aug. 162
prevention after Class I, II, and V restorations, Sept./Oct. 202
- Serum, of orthodontic patients, measurable nickel and chromium levels in, May/June 123
- Sex, patient, effect on experience of pain during endodontic treatment, July/Aug. 173-174
- Shape design, simulated, helps involve patients in esthetic decisions, Mar./Apr. 48-49
- Shock-absorbing implants, mobile, 6-year experience, July/Aug. 167-168
- Shrinkage, polymerization
direction in light-cured *vs.* self-cured composites, Jan./Feb. 16-17
effect of plasma-arc photocuring on, May/June 111
- Silica chairside coating, indications and technique, Nov./Dec. 239
- Silicone impression materials, various addition-polymerized, disinfection alters wettability of, Mar./Apr. 66-67
- Silver-palladium *vs.* gold, for implant-supported cast frameworks, Nov./Dec. 259-260
- Simulated shape design, helps involve patients in esthetic decisions, Mar./Apr. 48-49
- Single Bond
alters mode of failure, May/June 107-108
- tensile bond strength to dentin, May/June 109
- Sjögren's syndrome, manifestations and dental management, May/June 95
- Sleep
apnea
gene, Mar./Apr. 60
oral appliance therapy for, factors associated with response to, July/Aug. 180-182
oral appliance therapy for, 2-year follow-up, Nov./Dec. 276-277
posture, effect on response to oral appliance therapy, Jan./Feb. 36-37
- Smoking
poor oral health and cardiovascular mortality, Mar./Apr. 74
women and, Mar./Apr. 60
- Sodium
hyaluronate injection with TMJ arthrocentesis, Jan./Feb. 37-38
lauryl sulfate-containing oral health care products causing oral desquamation and ulceration, July/Aug. 147-148
- Soft drinks, caffeinated, and caries in teens, Jan./Feb. 7
- Soft tissue changes, after crown lengthening surgery, 1-year follow-up, Mar./Apr. 79
- Softness, of tissue conditioners reserved by coatings, Sept./Oct. 227
- Sonicflex 2000 L/N system, for Class II cavity preparation, Nov./Dec. 254
- Space(s)
edentulous, in fixed prosthodontics, technique for analysis of, July/Aug. 153-154
maintainer, esthetic, for premature maxillary incisor loss in children, July/Aug. 149-150
outer, and teeth, May/June 104
- Special care/hospital dentistry, Jan./Feb. 13-14
- Specialization, dental, return on investment of, July/Aug. 176
- Spending, rising health, implications for dentistry, May/June 90
- Splinting, rigid, effect on outcomes of root-fractured permanent incisors, Nov./Dec. 259
- Staining, toluidine blue, for evaluation of suspicious oral lesions, Jan./Feb. 25
- Stainless steel
crown failure rate in developmentally disabled children, July/Aug. 174-175
files *vs.* GT files and ProFiles in preparation of curved root canals, Jan./Feb. 19
- Sterile gloves, effect on postextraction complications, Sept./Oct. 221
- Stomatitis, desquamative, due to oral health care products, July/Aug. 147-148
- Strength
bond (see Bond strength)
flexural
of glass ionomer, short glass fiber-reinforced, Mar./Apr. 63
of resins, provisional, Sept./Oct. 209
- fracture
effects of crown/abutment combinations on, July/Aug. 178-179
of premolars, endodontically treated, effects of core buildup on, July/Aug. 179-180
retentive, of retrievable cement-retained implant-supported fixed partial dentures, Mar./Apr. 68
- Streptococcus intermedius* odontogenic infection, penicillin-sensitive, Jan./Feb. 9-10
- Stress
on bone in edentulous posterior mandible, effects of implant configuration on, July/Aug. 167
suicide in dental schools and, Jan./Feb. 23-24
thermal, on various dowel-and-core materials, Mar./Apr. 83
- Strip(s)
bleaching, color change with, retention at follow-up, Nov./Dec. 257-258
crown placement on primary incisors, technique, Nov./Dec. 245-246
- Stylohyoid syndrome, diagnosis, May/June 93-94
- Styloid process, elongated, diagnosis and management, Sept./Oct. 220
- Subgingival
areas, Profin system facilitates approach to, July/Aug. 139-140
plaque, effect on response to locally delivered doxycycline, Sept./Oct. 224
- Submergence, tooth, report of 28 cases, Nov./Dec. 271
- Sugar, effects on oral health, July/Aug. 144
- Suicidal ideation, early signs of, Jan./Feb. 24
- Suicide, and dentists, Jan./Feb. 23-24
- Sulfur compounds, halitosis-associated volatile, oral care products compared for ability to reduce, Jan./Feb. 27
- Super-EBA
vs. compomers for root-end filling, Jan./Feb. 19-20
vs. mineral trioxide aggregate in prevention of endoleakage, July/Aug. 165
- Surface integrity, of tissue conditioners preserved by coatings, Sept./Oct. 227
- Syntac SC, adhesive-dentin interface of, Nov./Dec. 252-253

T

- Table salt, and gag reflex, Mar./Apr. 66
- Tartar Control Listerine Antiseptic, antifungal efficacy of, Jan./Feb. 28
- Tea, green, effect on oral cancer cells, Nov./Dec. 265
- Teaching, of hand-over-mouth technique, decrease in, Mar./Apr. 76
- Teens, caries in, and caffeinated soft drinks, Jan./Feb. 7
- Teeth
abutment, effects of removable partial dentures on periodontal health of, Sept./Oct. 228

- adjacent to removable partial denture, survival of, negative association in, Jan./Feb. 32
- anterior
- nerve blocks in, inferior alveolar, Mar./Apr. 61
 - wear, and TMJ disorders, Sept./Oct. 231
- baby tooth survey, Sept./Oct. 207
- carious, detection of endotoxin in pulp of, Jan./Feb. 26
- endodontically treated, effects of dowel design on, Jan./Feb. 35-36
- implant-connected prostheses in partially edentulous patients, long-term follow-up, Jan./Feb. 34-35
- loss of, effect of calcium and vitamin D supplements on, Sept./Oct. 214
- mandibular, anterior, lingual recession on, as complication of tongue piercing, Sept./Oct. 208
- mesiodistal, angles, accuracy of panoramic measurements of, Sept./Oct. 228-229
- necrotic, pain after treatment for, effect of apical trephination on, Jan./Feb. 18-19
- neighboring, glass ionomers promote remineralization of interproximal caries in, Jan./Feb. 29-30
- nonabutment, effects of removable partial dentures on periodontal health of, Sept./Oct. 228
- nonvital, bleaching technique, Nov./Dec. 242
- outer space and, May/June 104
- posterior
- chipping, as complication of tongue piercing, Sept./Oct. 208
 - missing, linked to TMJ disorders, Sept./Oct. 230
- primary
- caries in, active enamel, effect of fluoride varnish on, Mar./Apr. 79-80
 - decayed, polyethylene ribbons for reconstruction of, May/June 99
 - reattachment for fracture in violation of biologic width, Nov./Dec. 247-248
 - sealing after incomplete caries removal for deep carious lesions, Sept./Oct. 229-230
 - single-tooth osteotomy improves technique of intentional replantation, Nov./Dec. 240
 - submerged, report of 28 cases, Nov./Dec. 271
- Teething, in children, myths and modern management, Jan./Feb. 12
- Temperature, in peri-implant bone, unipolar electrosurgery raises, Mar./Apr. 67
- Tempphase, flexural strength of, Sept./Oct. 209
- Temporomandibular joint
- ankylosis, new correction procedure, technique and results, July/Aug. 146-147
 - arthrocentesis
 - prognostic factors in, May/June 132
 - with sodium hyaluronate injection, Jan./Feb. 37-38
 - derangement, internal
 - discectomy for, 5-year follow-up, Jan./Feb. 38
 - osteoarthritis and, MRI findings, July/Aug. 183
 - dislocation, recurrent, blood injection for, May/June 103
 - disorders
 - in healthy young adults, predictors of, July/Aug. 182
 - missing posterior teeth and, Sept./Oct. 230
 - plea for patient with, Sept./Oct. 188-189
 - symptoms of, panoramic radiographs in patients with, Mar./Apr. 81
 - tooth wear and, anterior, Sept./Oct. 231
 - painful, MRI findings in, Jan./Feb. 38-39
 - prosthesis, new, Sept./Oct. 205-206
- Tetracycline paste, for retrograde peri-implantitis, Jan./Feb. 9
- Thalidomide, low-dose, in prevention of recurrent HIV-associated aphthous ulcers, May/June 121-122
- Thermal stress, on various dowel-and-core materials, Mar./Apr. 83
- Thermoplasticized gutta-percha techniques, vs. lateral condensation, Nov./Dec. 257
- Tissue
- conditioners, coatings preserve surface integrity and softness of, Sept./Oct. 227
 - connective, free, in combined surgical procedure for root coverage, May/June 128
 - hard, dental, effect of CO₂ laser on, July/Aug. 169
 - regeneration, guided
 - for gingival recession, July/Aug. 175
 - plus XRP, for root pathosis, Sept./Oct. 194-195
 - soft, changes after crown lengthening surgery, 1-year follow-up, Mar./Apr. 79
- Titanium
- abutments
 - crowns with, metal ceramic, effects on fracture strength, July/Aug. 178-179
 - milled, crowns with, Ceram or Celay fieldspathic, effects on fracture strength, July/Aug. 178-179
 - castings, radiographic study shows technical acceptability of, Nov./Dec. 275
 - nickel (see Nickel-titanium)
 - TMJ (see Temporomandibular joint)
 - Toluidine blue, for evaluation of suspicious oral lesions, Jan./Feb. 25
 - Tomy Bioforce sentalloy, metal release from, May/June 124
 - Tongue piercing
 - long and short of, Nov./Dec. 250
 - oral complications of, Sept./Oct. 208
 - Tonsillectomy, in management of elongated styloid process, Sept./Oct. 220
 - Tooth (see Teeth)
 - Toothbrush performance, analysis with intraoral camera system, Mar./Apr. 78
 - Toothpaste
 - oral desquamation and ulceration due to, July/Aug. 147-148
 - potassium-containing, effect on dentine hypersensitivity, May/June 126-127
 - Viadent, and sanguinaria-related oral leukoplakia, July/Aug. 170-171
- Tori, mandibular, for bone grafting, Jan./Feb. 11
- Torque controllers, electronic, accuracy of, Jan./Feb. 22
- Toxicity, acetaminophen-induced liver, in patient with jaw pain, Mar./Apr. 58-59
- Training program, effects on communication with HIV-infected patients, July/Aug. 157-158
- Transbond XT, fluoride release by, May/June 124-125
- Transillumination, fiberoptic, in caries detection, Mar./Apr. 50-51
- Transplantation, bone marrow, for children with cancer, orthodontic treatment after, May/June 126
- Trauma
- disorders, cumulative, in dentistry, risk factors and prevention, Sept./Oct. 196-197
 - oral mucosal, due to lost polishing disks, Mar./Apr. 52-53
- Trephination, apical, effect on pain after treatment for necrotic teeth, Jan./Feb. 18-19
- Triamcinolone acetonide, in local corticosteroid-antibiotic cream for posttreatment endodontic pain, May/June 115
- Triclosan
- amine-fluoride mouthrinse, antiplaque effects of, Nov./Dec. 274
 - containing liquid dentifrice, clinical effectiveness, Sept./Oct. 226
- Trigeminal neuralgia
- case report, Mar./Apr. 54-55
 - idiopathic, glycerol injection in, long-term results, May/June 119-120

U

Ulcers

- aphthous, recurrent HIV-associated, low-dose thalidomide in prevention of, May/June 121-122
- oral, due to oral health care products, July/Aug. 147-148

Ultrasonic

- scalers, magnetostrictive vs. piezoelectric, performance of, Jan./Feb. 17-18
- vibration to remove fractured posts, May/June 112
- Unifast LC, flexural strength of, Sept./Oct. 209
- Utilization review, effects on dental practice, Jan./Feb. 13

V

- Vacufilm, effect on wettability of impression materials, Mar./Apr. 66-67
- Valdecoxib, vs. oxycodone/acetaminophen for postoperative analgesia, Nov./Dec. 272-273

Varnish(es)

- Duraphat *vs.* Duraflor, fluoride release over 6 months from, May/June 115-116
- fluoride
 - effect on active enamel caries in primary teeth, Mar./Apr. 79-80
 - lack of fluoride uniformity among, Sept./Oct. 212-213
- Veneers, composite *vs.* ceramic, marginal gap width with, July/Aug. 161-162
- Viadent toothpaste or mouthwash, and sanguinaria-related oral leukoplakia, July/Aug. 170-171
- Vinyl polysiloxane, effect on hybridized dentin permeability, Jan./Feb. 15-16
- Virus, human immunodeficiency (*see* HIV)
- Viscostat 20% ferric sulfate, no cardiovascular effects of, Nov./Dec. 273
- Visit, initial noninvasive, effect on children's behavior during restorative procedures, Mar./Apr. 75-76
- Vital signs, of dental practice, checking of, Sept./Oct. 203-204
- Vitamin D supplements, and tooth loss, Sept./Oct. 214
- Vitremer
 - effect on remineralization of interproximal caries in neighboring teeth, Jan./Feb. 29-30
 - as sealant in children, Jan./Feb. 31-32

W

- Warm gutta-percha, *vs.* lateral condensation, May/June 114
- Warming chlorhexidine, antiplaque effect increased by, Sept./Oct. 224-225
- Warts, HIV-associated oral, intralesional interferon- α for, July/Aug. 148
- Water, dental waste, as source of environmental mercury, Jan./Feb. 40
- Wax, chlorhexidine, effect on fissure colonization in erupting molars, Nov./Dec. 272
- Wear
 - resistance
 - of endodontic instruments increased by ionic implantation, Mar./Apr. 64
 - localized, for different compomers, May/June 109-110
 - tooth, anterior, and TMJ disorders, Sept./Oct. 231
- Wettability of impression materials, disinfection alters, Mar./Apr. 66-67
- Whitening, in-office, with 35% hydrogen peroxide, effect of light-curing on results of, Nov./Dec. 258
- Women
 - anorexia and bulimia nervosa in, medical and dental management, Sept./Oct. 198-200

- menopausal, hormone replacement in
 - effects on health, medical and oral, Sept./Oct. 201
 - effects on rate of painful and dry mouth, Mar./Apr. 73-74
- postmenopausal, estrogen replacement therapy in, effect on implant failure rates, May/June 116
- smoking and, Mar./Apr. 60
- Work force, Future of Dentistry report as road map for, July/Aug. 138
- Wound healing, after lower third molar surgery, effect of flap design on, July/Aug. 171-172

X

- XRP, plus guided tissue regeneration for root pathosis, Sept./Oct. 194-195
- Xylitol, caries prevention with, Nov./Dec. 251

Z

- Z100, mode of failure altered by, May/June 107-108
- Zeta C & B Acrylic, flexural strength of, Sept./Oct. 209
- Zinc oxide-eugenol, as secondary seal after root canal treatment, Mar./Apr. 65
